News from Iraq

Politics

• The US Department of Defense, "Pentagon" confirmed on Tuesday that the Iraqi forces have made significant progress in its battle against IS in the city of Baiji and the oil refinery. The spokesman for the US Department of Defense, Steve Warren said that, "the Iraqi army supported by troops al-Hashed al-Sha'bi militia and the international coalition strikes has made significant progress in its battle against IS in the city of Baiji and the oil refinery, one of the largest refineries in Iraq," indicating that, "Iraqi forces have succeeded in opening the supply line into the city." (Iraqi News)

Economics

• Iraq paid the autonomous Kurdistan region only around half its monthly share of the national budget in May as part of other spending cuts, the Iraqi finance minister said on Tuesday, potentially putting further strain on an oil exports deal. The December deal was hailed as a breakthrough in a long-running dispute over exports between the federal government in Baghdad and Kurdish regional authorities, which want to sell oil on their own terms, but both sides accuse each other of violations. (Zawya)

ISX - Company Announcements

- Iraq Registrar of Companies approved the decisions of Al-Harir For Money Transfer (MTAH) including increasing its capital from IQD15bn to IQD30bn through 100% rights issue.

Source: Iraq Stock Exchange

*Average data was calculated according to recent six months, by dividing the total daily trading volume (excluding two highest trading vol.) to total number of trading days (excluding the No. of days share were suspended due to GA or by ISC).

** Last Financials: The date of the most recent financial statements.

P/E (Last): For banking sector, we divided "Current Mcap" to "trailing net profit" while calculating P/E (Last), when the recently announced financial statements are for the interim period. For other listed companies, we divided "Current Mcap" to "annualized YTD profit" while calculating P/E (Last), when the recently announced financial statements are for the interim period. While calculating annualized YTD profit, we adjusted unaudited profit before tax values by deducting 15% income tax.

P/BV (Last): Calculated by dividing "Current Mcap" to "BV in its Last Financials".

***When the original shares resume trading, we start using the number of shares that the company will reach after the capital increase with the assumption that the capital increase was reflected to the price of the shares. We use the new capital in calculating Mcap.

Note: "Suspend/ISC" companies are not trading due to ISC Instructions.

"Suspend/GA" companies are not trading due to General Assembly Meetings.

"(NR)": These are the companies which are trading in the Non-Regular market (in compliance with Iraq Securities Commission law numbered 132/9 on 20/12/2012). These companies were moved to the secondary market (non-regular) because of the decrease in their trading volume and the number of days that these companies are being traded for. Please note, according to the Regulations of the Secondary Market, in each trading session, the average share price will be calculated for each share. The maximum increase and decrease of +/- 20% will be based on the average price in the previous session. The price should be valid during three effective trading sessions after the listing, and it will be free in the first trading session after capital increasing.
