News from Iraq

Politics

- The Iraqi Parliament on Tuesday afternoon convened to vote on the eight remaining ministers of the newly-formed federal government, but a boycott from some factions and confrontations between lawmakers postponed the session. The session started with 168 lawmakers out of 329 in attendance to vote on candidates and complete Prime Minister Adil Abdul-Mahdi's new government cabinet. Soon after the session began, a confrontation erupted among the lawmakers and many of the factions also left and boycotted the session. The parliament's leadership postponed the session to Thursday. (Kurdistan 24)
- Iraqi protesters on Tuesday clashed with the security forces in the southern province of Basra after they attempted to raid the governor's office. According to Iraqi media reports, the security forces used weapons to disperse the demonstrators, while they also have started to arrest the protest organizers in hopes of bringing the situation under control. (Bas News)
- The Iraqi government has reportedly removed the Fayida customs post between Mosul and Duhok province on Tuesday, following a parliamentary vote that deemed the customs points illegal and ordered their removal. (Iraq Business News)
- Iraqi Premier Adel Abdul Mehdi disclosed that 13,000 corruption cases were opened for investigation at the Integrity Commission. He stressed that the Iraqi government is "serious" to eradicate corruption in the country. "We will not permit the corruptors to hide", he confirmed. (Iraq Trade Link)

*Average data was calculated according to recent six months, by dividing the total trading volume (excluding cross transactions) in the last six months to total number of trading days (excluding the No. of days share were suspended due to GA or by ISC).

** Last Financials: The date of the most recent financial statements.

P/E (Last): While calculating P/E (Last), we divided "Current Mcap" to "trailing net profit" when the recently announced financial statements are for the interim period. For the companies which trailing profit cannot be calculated due to lack of information, we divide "Current MCap" to "annualized YTD profit," while calculating P/E (Last). We adjusted unaudited profit before tax values by deducting 15% income tax, while calculating annualized YTD profit.

P/BV (Last): Calculated by dividing "Current Mcap" to "BV in its Last Financials".

Iraqi banks started to publish IFRS annual reports starting 2016; however, interim period results are available according to Iraqi accounting rules. As a result, we will continue to depend only on the financial results prepared according to Iraqi accounting rules to be able to work with consistent data till the financial statements for both quarterly and annual data will be available according to IFRS standards.

***When the original shares resume trading, we start using the number of shares that the company will reach after the capital increase with the assumption that the capital increase was reflected to the price of the shares. We use the new capital in calculating Mcap.

Note: "Suspend/ISC" companies are not trading due to ISC Instructions.

"Suspend/GA" companies are not trading due to General Assembly Meetings.

"(NR)": These are the companies which are trading in the Non-Regular market (in compliance with Iraq Securities Commission law numbered 132/9 on 20/12/2012). These companies were moved to the secondary market (non-regular) because of the decrease in their trading volume and the number of days that these companies are being traded for. Please note, according to the Regulations of the Secondary Market, in each trading session, the average share price will be calculated for each share. The maximum increase and decrease of +/- 20% will be based on the average price in the previous session. The price should be valid during three effective trading sessions after the listing, and it will be free in the first trading session after capital increasing.

"We use the FX rate given by the bank that Rabee Securities makes its banking transactions while calculating the dollar values in our research reports instead of CBI market FX rate to be more conservative."
