News from Iraq

Politics

- Iraq's Prime Minister Nuri al-Maliki visited the Kurdistan region on Sunday for the first time in more than two years, in an attempt to resolve a long-running dispute over oil and land that has strained Iraq's unity to the limit. With the country's Shi'ite leadership facing fallout from the Syrian conflict, which has invigorated Sunni insurgents in Iraq and prompted warnings of civil war, better relations with the Kurds could ease some pressure on Maliki. (Reuters)
- Planning ministry confirmed readiness to conduct 2014 general census, provided that the questions of the disputed areas should be solved in advance. Article 140 of 2005 Iraqi constitution stipulated the normalization of the relations in the disputed areas in Kirkuk and other provinces, like Ninewa and Diala. (Aswat AL-Iraq)

Economics

- Iraq's Ambassador, Dr Rushdi Mahmood Al-Ani, stated that his country, Iraq is interested in supplying crude oil to Pakistan that too without any conditions. Pakistan has right now in need for energy to meet the domestic demand and Iraq's willingness for the country is definitely a big help for the country. Iraq has also expressed its keenness to import manpower from Pakistan for the ongoing reconstruction projects in Iraq. (Iraq Directory)
- Parliamentary Oil and Gas Commission MP Suzan al-Saad called the Iraqi Cabinet to include the Oil and Gas Law in its Arbil meeting agenda. In a statement, she added that "this law is one of the important laws in the country, in addition to the disputes between the central government and the Kurdish region". (Aswat AL-Iraq)

*Average data was calculated according to recent six months, by dividing the total daily trading volume (excluding two highest trading vol.) to total number of trading days (excluding the No. of days share were suspended due to GA or by ISC).

** Last Financials: The date of the most recent financial statements.

P/E (Last): We divide "Current MCap" to "annualized YTD profit".

P/BV (Last): Calculated by dividing "Current Mcap" to "BV in its Last Financials".

***When the original shares resume trading, we start using the number of shares that the company will reach after the capital increase with the assumption that the capital increase was reflected to the price of the shares. We use the new capital in calculating Mcap.

Note: "Suspend/ISC" companies are not trading due to ISC Instructions.

"Suspend/GA" companies are not trading due to General Assembly Meetings.

"(NR)": These are the companies which are trading in the Non-Regular market (in compliance with Iraq Securities Commission law numbered 132/9 on 20/12/2012). These companies were moved to the secondary market (non-regular) because of the decrease in their trading volume and the number of days that these companies are being traded for. Please note, according to the Regulations of the Secondary Market, in each trading session, the average share price will be calculated for each share. The maximum increase and decrease of +/- 20% will be based on the average price in the previous session. The price should be valid during three effective trading sessions after the listing, and it will be free in the first trading session after capital increasing.
