**News from Iraq**

**Politics**

- United States aircraft struck armored vehicles and other militant targets Saturday in the second day of U.S. air strikes against the Islamic State in Iraq and Syria (ISIS), an extremist group threatening minorities in northern Iraq, U.S. Central Command said. (Al Arabiya News)
- President Barack Obama said on Saturday U.S. air strikes had destroyed arms that Islamic State militants could have used against Iraqi Kurds, but he warned there was no quick fix to a crisis that threatens to tear Iraq apart. Speaking before U.S. warplanes struck militant targets for the second straight day, Obama said it would take more than bombs to restore stability, and criticized Prime Minister Nuri al-Maliki's Shi'ite-led government for failing to empower Iraq's Sunnis. (Zawya)
- European heavyweights France, Britain and Germany on Friday rallied in support of US air strikes against Islamic State (IS/ISIS) militants near Erbil. The Pentagon confirmed Friday that fighters had carried out two separate sorties against IS positions, after President Barack Obama authorized air strikes against the militants to stop them from advancing toward the Kurdistan Region capital of Erbil. (Rudaw)

**Economics**

- Oil production from Iraqi Kurdistan remains unaffected despite an incursion by Islamic State militants along the autonomous region's border, its Ministry of Natural Resources said in a statement on Saturday. (Zawya)
- The members of the temporary committee assigned to discuss the budget agreed to return the law budget to the government. (Zawya)

P/E (Last): We divide "Current MCap" to "annualized YTD profit".

P/BV (Last): Calculated by dividing "Current Mcap" to "BV in its Last Financials".

\*\*\*When the original shares resume trading, we start using the number of shares that the company will reach after the capital increase with the assumption that the capital increase was reflected to the price of the shares. We use the new capital in calculating Mcap.

Note: "Suspend/ISC" companies are not trading due to ISC Instructions.

"Suspend/GA" companies are not trading due to General Assembly Meetings.

"(NR)": These are the companies which are trading in the Non-Regular market (in compliance with Iraq Securities Commission law numbered 132/9 on 20/12/2012). These companies were moved to the secondary market (non-regular) because of the decrease in their trading volume and the number of days that these companies are being traded for. Please note, according to the Regulations of the Secondary Market, in each trading session, the average share price will be calculated for each share. The maximum increase and decrease of +/- 20% will be based on the average price in the previous session. The price should be valid during three effective trading sessions after the listing, and it will be free in the first trading session after capital increasing.
